

# Hi 🙋 My name is Melvin Wafula

## Full Stack Developer and Block Chain Developer

I started programming with Python, experimenting mostly with Artificial Intelligence but my experience has expanded to touch Java for android development : I now prefer kotlin. I fell in love with JavaScript, which I have written most code on. I have done some research on frameworks, developed my own html components, but work mostly with the Svelte framework.

- 🌐 I'm based in Kenya
- ✉ You can contact me at [melvinwafula@gmail.com](mailto:melvinwafula@gmail.com)
- 🚀 I'm currently working on [NFT Auction with reach](#)
- 🧠 I'm learning Next.js
- 🤝 I'm open to collaborating on Web3 Daaps
- ⚡ I took the red pill.
